

The Case of the Shrinking Dragons Data

Use the following data of iguana measurements to plot a bar chart showing the two measurements of each iguana.

Think about which data goes on each axis and how you will plot the two years' data for each iguana.

Marine iguana individual	Before picture (2015) measurement	After picture (2015) measurement	Change in measurement
Red bead	60mm	54mm	6mm
Green bead	70mm	62mm	8mm
Blue bead	65mm	60mm	5mm
Yellow bead	80mm	71mm	9mm
